

WORK SITE ADVISORY

SITE SAFETY TRAINING (SST) CARDS

- The deadline for construction workers to obtain an updated NYC DOB Training Connect SST ID card, required to work on larger and more complex work sites, is Wednesday, February 1st, 2023.
- Starting February 1st through Saturday, March 18th, 2023, the Department of Buildings will not take enforcement action when it finds that a worker does not have the updated Training Connect SST card, provided the worker can demonstrate they obtained appropriate training through a DOB-approved training provider.
- During this 45-day window, DOB inspectors will focus on educating workers, contractors, and safety professionals on the new requirement for the updated Training Connect SST ID cards.
- Enforcement actions will still be taken if DOB finds a worker on a SST work site who has not obtained the appropriate training.
